Comments: Us local people have been using several areas in wintertime for winter activities such as snowmobiling, ice fishing and skiing. This has become a way of life for many valley residences. One of our recommendations would be to keep the over snow use in areas that has been historically used by the public and not close these areas down to public use especially for the local folks that live in the valley. By closing areas down that have historical use would affect the local economy and demote tourism. This could have an adverse effect for local stores and county taxed based dollars.
