Comments: I have horse camped here before and ate the Buffalo Burgers! This is a great opportunity to expand & compartmentalize Horse Trailer Parking & Camping sites ONLY as we love the access to the Flattops, but dont necessarily want to pack in overnight. I loved the restaurant! The cabins were convenient but the horse camping/overnight facilities that I used were very primitive but do able. Could really use some structure here for that purpose and reservation only camping I think, with structured water, trash, to keep it clean. Good job guys and Thanks for the opportunity to participate, I hope to be able to return but alas! Time is running out for this old horse gal!
