Comments: To Whom It May Concern:

Allowing this mine to defile and pollute a beautiful mountain area is beyond thinking. The advantages the company purports to provide, appear to be a smoke screen to bilk the public. At some point this sort of rape of the land for personal profit has to stop.

I, as a Realtor, strongly oppose this project and pray that the powers that be have enough respect for the land and the people and the animals, to make the proper decision.

Sincerely, Meg Flanders
