Comments: I am very concerned about the huge use of our precious water this mine will use. This is a limited resource and I do not believe this is a good use for our water.

Secondly, I am concerned that at the end of the useful life of this mine the owners will abandon the property and we citizens will bear the brunt of upkeep. Additionally, we would be responsible for mitigating any environmental issues that may arise in the future. Bonds have not ever covered these types of expenses.
