First name: Gale

Last name: Thomssen

Organization:

Title:

Comments: I am very concerned about our Dark Sky Community. We have worked hard to preserve our Dark Sky. Wildlife and humans, too need the dark of night to survive and repair.

The mine operation has lighting 24/7. This is most disturbing to all of us. This mine lighting and the truck traffic lights are a danger to all.

Please protect us, the wildlife and our forests.

Please do your job and not be influenced by the money being spent to distract people from the realities of what the mine is doing to all of us.

Thank you.
