First name: Karen

Last name: Pomroy

Organization: Equine Voices Rescue & Sanctuary

Title: President/Founder

Comments: To Whom it May Concern regarding the Hermosa Critical Minerals Project #65668,

Not only will this project impact wildlife and natural habitats, it will critically impact our water sources. As a citizen who values not only our natural landscape, but all that inhabit it, including and especially the wildlife.

The Forest Service is responsible for ensuring that our lands are managed and protected, but this "critical" project has the scent of greed, destruction, and money.

What is "critical" about this project?

That is a question I would like answered.

I ask in a kind fashion that you put a halt to this insane plan.

Thank you,

Karen Pomroy
