First name: MARYANNE

Last name: POMEROY-FULTON

Organization:

Title:

Comments: Our lives, our Health and, our environment, are far more important than your profits. Profits going to a foreign country...NOPE. I don't believe your promises can possibly be kept; afterward, it's just too late. Our area contains a wildlife preserve. The noise and pollution will hinder the return of native and endangered species.

Water is life. We don't have the water necessary to support a mine and our lives, flora, and fauna.

People come first. Not your profits. We were here first. We have rights. Go away.
