First name: Demare

Last name: Baldeschi

Organization:

Title:

Comments: Please study the following points in regards to the plans for the Hermosa Critical Minerals Project #65668:

The impacts on endangered species in the area, specifically the jaguar

The impacts on animal populations and adverse affects that may cause endangerment or overpopulation a species

The impact on the health of humans in the area

The impact on ground water systems that provide for human consumption

The impact on the watershed

The impact on water safety for surrounding farms

The impact on possible archeological sites

The impact on existing historical buildings in the area

Please consider:

Laying electric lines in the ground to prevent fire risk

Choosing a different route for trucks as apposed to building a new road through forest service land
