Comments: The fundamental issues for the slow walking of the effort to timely approve these projects to improve the facilities and experience the area are unfounded and relies, a bit much on the real or imagined inconvenience of the residents of the Sweetwater valley. The amenity package as proposed appears quite reasonable. The expansion seems to better accommodate a relatively small increase in visitor traffic on a road that in any case may require county or state funded improvements in any scenario for redevelopment. It is hard to believe that current vendors for Sweetwater Lake are reluctant to embrace reconstruction and new code required building additions to improve new vendor outlets. I am so happy as a user in the area to see these much-needed improvements to one of the most spectacular gateways to the Flattops Wilderness. I've often originated horseback treks to the distant Budge White River Resort. As one of the most incredible experiences one can have on horseback, this 5 hour+- trip is one of a kind.
