First name: JOSEPH

Last name: MANDELLA

Organization:

Title:

Comments: I do NOT want motorized anything; snowmobiles or four-wheeler atv's, in the forest lands during winter except for emergency and utility purposes.

Noise and violent-human behavior is upsetting wildlife into aberrant behavior resulting in less offspring, resulting in depleting our environmental resources for future generations. We, American, need to be educated as to how much destruction we cause by our presence in these ecosystems.

The BLM is more suitable to conserving our natural resources as well as the reintroduction of species that we Americans have already destroyed.

We need to educate people not to destroy what we love, But to nurture it. j
