Comments: ... one more thing. I really like your approach to closing/keeping FS roads closed in the spring. I enjoy looking for elk sheds in the spring and support you keeping the roads closed well into May. There is no reason to have them open earlier as we always have those spring snows and end up with ruts in the mud. The vast majority of Elk shed hunters don't mind hiking in on closed FS roads in the spring. That's a great policy-keep up the thoughtful management. Maybe even move the date later-perhaps June 1st.
