Comments: Hello.

I have been coming out west to Sweetwater since 1994.

I fell in love with all that it did not offer.

I have been out there 15 times. I'm hearing about all of the proposed changes and I am stunned that you would consider making this place a place for the masses. The road cannot handle the traffic for starters. Way to small for anything more than what is currently being used.

There is no good place for the extra sewage being trucked to Denver. The impact on the local wildlife would never be replaced. smaller or exactly the way it is with the one dead end road restaurant is perfect. Please do not mess with perfection. Jeff Nix sincerely
