Comments: Thank you for the work you do to protect and preserve our national forests!

I am unable to open the documents to read the proposed changes and plans, but I want to make sure that my hopes of sustained care for our trees is registered! Especially now, as we know the importance that trees and wilderness have in cooling our climate - the utmost effort should be made to preserve our forests.

We only have this planet. The trees help keep it a place where life can continue for humans and animals.
