Title:

Comments: 6/21/2024 Please except these comment for the Apache -Sitgreaves National Forest road management plan. Alternative 2 on one map has roads inventoried, and the new map is missing inventory road extensions- our comments are for the Clifton Ranger District.

8463A , 8463B, these two roads continue a 1/2 mile to a mile on East Eagle Allotment.

217/8369 road from dry prong to Sawmill Cabin (east eagle-salt house confluence) is not on the new mapping.

8369 currently has a seasonal closure from February 1 to June 30th that has not been identified on the maps.

217J road has an extension that continues south into section 21 and 28 on Mud Springs Allotment, it is not on the new map as inventoried.
