Comments: I wood like to think that the forest I lived near when I was a child was an old- growth forest, but I am sure it was not. There are not many truly old growth forest in the U.S. Please preserve the ones that do exist.

Is there a 2,000 or 3,000 year old tree in the U.S. ? I'm not sure. I know one was cut down !

Are the Red Woods and /or the Sequoias that old? Why would anyone dream of losing those Great Giants OR a Small Cyprus.
