Comments: I don't really think my opinion will matter, however, I do have a wish for Sweetwater Lake. When my husband and I came here from Pa. 33 years ago, we became friends with Adrienne Brink. We worked for her at the lake for several seasons and lived there part of the time. The atmosphere thereing was so quaint and welcoming that from then on we loved this area. My wish is that whoever takes charge of whatever is to be done there will try to capture the essence of what was there. It was like stepping back in time. There are enough projects around that modernize our lives, but people come to places like the Lake to escape the hustle and bustle all around us. Maybe design the buildings in an old fashion Western look. Anyhow, thanks for you time.
