Title:

Comments: I think this project will greatly enhance the outdoor opportunities for our area. This will have a potential for bringing people from all over the world to enjoy our beautiful area while adding clean jobs for our young people that will allow them to remain in the Mena/Polk County area. Although there will be some disturbance of the forest in the immediate area of the trails once complete this will be an environmentally friendly means to enjoy the great area that we live in. Most people that enjoy this sport are very conscious of the places that they ride and will not leave litter along the trails. I am truly excited about the future of Mena, Polk County, the surrounding region, and the state with the completion of these trails and lift system.
