Comments: I have lived in this area my whole life. This being said I feel that this is an unnecessary change. The county is already saturated with tourists and the infrastructure is falling further and further behind where it should be to support such an increase in visitors to our area. In addition to this formal complaint I personally don't agree with the destruction of our national forest where families have hunted for generations to try to make penny's off of out of towners and their bicycles. The small amount of money we may bring in from this does not compare to the experiences and lessons learned in the natural habitat that these bike trails will destruct.
