Comments: As a lifelong resident of Polk County and outdoor enthusiast, I fully support the bike trails being built in our area. Not only are there numerous opportunities for new and existing businesses, but it will also continue to bring people from all over the country and world to our area. We will get to experience growth our area hasn't seen before. Growth that we need to see if we are going to continue raising our families here. Numerous times I've heard community members voicing their opinion on lack of choices in our area when it comes to lodging, restaurants, shopping, and entertainment. We are not going to get those amenities without change. This project provides an opportunity for something we can all enjoy.
