Comments: Please approve class 1 ebike usage on all trails that currently and in the future allow traditional "acoustic" mtn bikes.

There have been plenty of studies done showing that there is no noticeable increase in trail impact from a class 1 ebike vs. a non-electric bike.

E-bikes allow countless older riders such as myself (65 years) who have been riding for decades to continue accessing and enjoying the places that mtn biking affords us.

Thank you for your thoughtful consideration of this matter.
