Comments: My goodness allow Class 1 and let's do it right!!! I'm an athlete- I climb, I ski mountaineer, I do fun things in the mtns. But unless it's flat, I've had to resort to my e-bike. I'm 49 and just had my 6th knee surgery. For some reason the harder pedal push hurts like a mother and causes severe swelling. Yet, I can ride my e-bike with tolerable pain; please let me get back out there on the dirt!
