First name: Pat

Last name: Addabbo

Organization: Oregon Adaptive Sports

Title: Executive Director

Comments: Oregon Adaptive Sports supports allowing class-1 pedal-assist e-bikes on non-motorized trails. Outside of adaptive mountain bikes that are designed for and specifically utilized by individuals with disabilities, class-1 e-bikes are a valuable tool in creating access to healthy outdoor recreation experiences for individuals with disabilities who may not require an adaptive mountain bike.

OAS strongly supports education that encourages proper trail etiquette to minimize user conflict. OAS teaches to this during guided experiences such as right-of-way, appropriate riding speed, where/when/how to stop, etc.
