First name: Jennifer

Last name: Price

Organization: BCHP

Title:

Comments: I have been involved with the Lickstone Project since day one-big, well attended meetings and very cold field trip! Many groups (hikers, equestrians, fishermen, local people etc.) were there to voice their concerns, wants, needs and general feedback.

As soon as horse trailer parking is available, myself as well as others in BCHP are ready to start work on loop trails. Sunburst is a beautiful area that with the right recreational activities put in place, the load on 276 should lighten and the visitor profile to the Lickstone area should modify. Pisgah is a large area to be enjoyed. Happy to be involved in exposing, protecting and sharing our forest.
