Comments: I'm a 55 yr old merchant here in Mena and i own a grocery store. The impact of the bike trails will have a big impact on my business. I think all local businesses will benefit from the tourism and also the growth of our community. The ouachita national forest is, in my opinion, the best kept secret in the central United States. I look forward to sharing the beauty of my hometown with bikers from all over the country. I believe this project will be a beacon for the whole country.
