Comments: Please, SAVE THE TREES! Our forests are the air purifiers we need to continue life on this planet. The animals and insects that inhabit our forests are being killed off and we can't afford to risk rapidly increasing extinctions. We don't know all the costs of destroying ecosystems-except we DO know that when wildlife is forced into populated areas, it's disastrous for all living things. Thank you for protecting the remaining nature we have in Indiana. Natural resources are indispensable.
