Comments: I am excited about the plans Mena has on developing a Mountain Bike park with lift access. As a professional mtb athlete and full time skills coach Ive been to many bike parks all over the world, having something like this in my own state would be so amazing , not only for Mena, and Arkansas but also for the country! Not only is this great for local businesses, it is great for the youth and getting more people on bikes enjoying the outdoors! We've seen the positive effects the biking trails have in surrounding states and areas, it will drive business and create work opportunities to town, Mena will have a great future ahead!

Kind regards,

Anneke Beerten
