Title: ASST. BEAVER WRANGLER

Comments: I represent South Sound Beaver Recovery Puyallup WA. We promote beaver recovery and co-existence and provide relocation when co-existence is impossible.

We understand beavers to be ecosystem engineers, that improve the riparian environment with their activities. They also back up lots of water; water that will be necessary as the glacier disappears. We need non-conflict release sites in the Carbon River shed to relocate beavers. We are happy to cooperate with USFS and other partners for beaver restoration in the Carbon shed. 253 732 6515
