Title:

Comments: I stand with Mountain True on these proposals. In particular, I would highlight the following:

Log fewer trees through the Rich Cove Forest Ecozone. The Lickston Project exceeds the natural range of variation in Rich Cove Forests, which could lead to a loss of ecological integrity.

Remove units 50 and 52 from the timber plan. These units are diverse and in good condition; logging them would degrade these healthy Rich Cove Forests.

Forest stream and species preservation are paramount and, by honoring these, sustainability is respected.

Please think about yourselves, your children, and their children. In making these important decisions.
