First name: Mark

Last name: Plachta II

Organization:

Title:

Comments: As a local resident and fairly heavy user in f the Colorado River and the river road, I feel it is already getting too busy. It's not long before careless accidents happen. Sage outfitters seems not to help the situation by bringing careless unaware tourists to the river. A state park sweet water is not going to help the situation. It seems only to bring further unwanted traffic with no real benefit to the community.
