Title:

Comments: I believe this project would be extremely beneficial to Mena Ar and the rest of Arkansas for that matter. I live in central Texas and travel to various parts of Arkansas at least 3 times a year for the mountain biking that thrives in the state. I know for a fact that thousands of others in my state do the same. This would bring travelers from every direction most likely year round. I think it would bring a lot of needed money to Mena and I am very excited to see where this ends up.
