Title:

Comments: My daughter grew up spending her summers at Sweetwater, working at the restaurant with her aunt and cousin. From personal experience, I remember the peaceful lake and sheer cliff walls. We hiked to the Indian caves, enjoyed wildflowers and paddled the lake. In addition to bird life, we saw bears and deer. Wildlife have given so much so that humans can have another place to go. It's time wildlife be given a chance at a life in a pristine wilderness unspoiled by humans.
