Title:

Comments: I am opposed to putting any chair lifts on the mountain but realize that there will probably be some so keeping it to the bare minimum is my preference and I certainly don't think they should detract from the wonderful views one gets from the various lookouts. Queen Wilhelmina State Park was one of the first I visited when I came to Arkansas 34 years ago and i still remember that fondly-I have been back MANY times. . I just read the Ozark Society's comments and support their recommendations over what I think the current proposals are-they're not en clear to me because I don't know the area so well and I'm confident the OS has done a good analysis as I know them well.
