Comments: I'm in favor of opening up the trails for class-1 ebikes. Having ridden both non e-bikes and e-bikes on single track trails I don't see the problem with allowing them on trails. I just hope there's enough signage and education on what a class-1 ebike is and to make sure that it is very well known tht 'Surren' ebikes (They should be called e-motorcycles) are not allowed on any of the trails.
