Comments: I am writing to express my support for the Trails at Mena Project as a lifelong resident and retiree of this wonderful community.

Having lived in Mena my entire life, I have seen firsthand how our community has grown and adapted over the years. The introduction of this trail system is a forward-thinking initiative that promises to bring significant benefits to our area. These trails will provide a safe and accessible environment for walking, biking, and enjoying the beauty of our natural surroundings, encouraging residents to lead more active and healthier lifestyles.

I am excited to see how these trails will become a gathering place for families, friends, and neighbors, strengthening the bonds that make Mena such a special place to live. The trails will highlight the natural beauty that makes our area unique, attracting visitors and nature enthusiasts. This increase in tourism will provide a boost to local businesses, creating new economic opportunities and supporting the growth of our community.

I strongly support the Trails at Mena project!
