Title:

Comments: I think its sad that the beauty of the forrest is being destroyed for a stupid bike trail. The only people that will benefit are the same ones that benefit from the atv business here. Mena needs jobs for its local residents,good jobs that offer benefits. More tourists to the area does not interest me in the least. The area i live in is overrun with tourists every weekend. We can't sit on the porch and enjoy whete we are because of the noise, dust from tourists driving up and down the county roads. Bri g a bunch of cyclists to the area will do the same thing to the mountain- make it harder for locala to enjoy. Just my opinion
