

Data Submitted (UTC 11): 7/31/2024 1:18:07 PM

First name: Randal

Last name: George

Organization: Latigo Ranch

Title: Owner/President

Comments: While I generally support actions to improve forest health and wildfire mitigation with fuels reduction along the lines proposed, I desire more detailed information on the impact this project could have on the operations related to our Special Use Permit and the recreational uses by the general public. We have seen the timber management arm of the USFS and the recreational management arm not coordinate well in the past. Please have the appropriate USFS representative reach out to us for further discussion.
