Comments: Sweet water lake and resort has always been a wonderfully quiet and peaceful area. It has long been a tradition for locals to escape the hustle and bustle of city folks and enjoy some peace and quiet at the sweet water resort. In addition to these sentimental feelings from my childhood, the proper role of the government is not to compete with private enterprise. The state should not be looking to develop anything here that is revenue generating and competitive with locally established businesses. Turn sweet water into the land trust we were all sold on or put it back up for sale to let capitalism and private enterprise let the market do as it will. Any restrictions placed on the small local ranching community that are already punished through over regulation and government restrictions will be decimated.
