Comments: Greetings! I am a young person and farmer who cares about protecting our forests. Let's together fulfill the direction of President Biden's Executive Order to protect mature and old-growth forests for the climate, clean water, and imperiled species.

I admire that the agency strives to work in close cooperation with the public, state, tribes, and local governments to help steward our forests and grasslands for future generations. Let's make decisions in the best interest of our public lands and the needs of our local communities.

Thank you!!

Mark
