Title:

Comments: My request:

End the cutting of old-growth trees in all national forests and all forest types and end the cutting of any trees in old-growth stands in moist forest types.

End any commercial exchange of old-growth trees. Even in the rare circumstances where an old-growth tree is cut (e.g. public safety), that tree should not be sent to the mill; the tribe whose ancestral lands the tree was growing should be consulted for dispensation of the tree.

Remove the exception that allows for "de minimis" logging of old-growth trees.

Eliminate the agency discretion to manage old growth out of existence in pursuit of "proactive stewardship" goals.
