First name: Craig

Last name: Lacy

Organization:

Title:

Comments: Our forests belong to all USA citizens, for too long they have been exploited by a select few. Our climate, health and the biodiversity of the forests will be improved if the USFS does a better job protecting old growth and mature forests. It is time to also help the wildlife by reducing grazing and ORV use on these forests and set up more protected areas.

We want to leave a better world for our kids. Please do your part.

Craig Lacy
