Comments: I would like to express my support for the East Fork Sunday Fire Salvage and Restoration #65292 project. This is a forward-thinking project that will improve the health of the forest post fire. Too often nothing is done after a fire and within 8-10 years the timber that has burned falls to the ground and temporary benefits of the fire go away. If salvage logging is not conducted, then the area will require a second entry burn to restore the habitat. Salvage projects should be prioritized to improve forest health. Thank you for the opportunity to express my support of this project.
