Title:

Comments: First, ideally more law enforcement in the field to respond to illegal activities would be a great management tool. 2nd, We need more ranges and better access to those ranges, especially ranges within a National Forest (eg. Camp Fickes). 3rd, We all need to educate public shooters more on safe shooting practices, regardless of where they are shooting, but especially if on public lands.

The above comments along with your comment to pass the Integrated Management of Target Shooting Project Environmental Assessment will go a long way to help our Club improve in a timely manner.
