Comments: Love the idea of expanding and updating, especially on Elk Camp. It has become increasingly crowded in the past few years, with lengthy lift lines and difficulty finding seating to eat lunch. The problem is many people who are not skiing ride the gondola up and take all the seats for a significant amount of time, and then the skiers do not have a place to sit and no one is getting up as the "sight seers" are not moving.

Expand seating significantly, inside as well as skiers do not want to eat outside. We are cold and want to warm up inside. The sight seers can eat outside, but provide more room inside for skiers to eat, and more small tables as parties do not want to share tables, so seats are being left open.

Also, expand the dining area and food options, as there are very few options for those of us with dietary restrictions. Very few vegan options available and this is very discriminatory and triggering.
