Comments: For decades we have paid taxes to the US government.

We hope our taxes go to help the USFS.

We hope that the USFS policies preserve Old growth trees.

Old growth trees are beautiful.

They are wonderful.

They preserve carbon for climate change issues.

We must preserve old growth forests.

I say "NO" to logging or thinning old growth forests.

We have done enough of that already.

We have destroy most of the old growth in the USA. STOP THE LOGGING!
