Comments: i am very much opposed to our national forests being treated as financial resources for local communities since they belong to 335 million americans for financial resources. such takings by locals is extraordinary greed. you cite degraded habitat and yet this agency has managed this forest site for the last 85 years so if degraded its your fault. how do we assign and get this agency off the management since you are responsible for degraded habitat. the usda has never been a strong environmental org, it is dedicated to farming and taking down nature for farming profits. lets log the forest for money right now is their prime focus. i do not support the waste of bidens equity plan at all since it is counter to our u.s. constitution right of equality to all citizens, giving some discriminatory aptitudes, attitudes and profiteering over others is in fact defacto discrimination and against our laws.
