Title:

Comments: As an avid outdoors person, I strongly support the NOGA. I have visited many of our National Parks and federal lands, always amazed at the beautiful old and mature trees. In June of this year, I backpacked in The Boundary Waters (Minnesota/Canada) where 45% of the trees are old growth. I will be visiting Yosemite National Park in October, and am again excited to experience the beauty of our forests.

This ammendment is a win-win for people and the environment. As an active Sierra Club member in Wisconsin, I cannot say enough about the importance of protecting our old growth and mature trees. By passing the NOGA, we can preserve our beautiful forests for generations to come!
