Comments: It is too bad that an exchange of land is not an option. Opposition to an exchange has a tribal factor which i can see as pertinent. I see also that this exchange of land only mentions the Superior National Forest. Probably because the BWCA lands are in Lake, Cook, and St. Louis counties. Is there a possibility of a transfer within the Chippewa National Forest? More money for education is a fine idea. Just thinking about accessibility of funds for education, over the long term or immediate, as in a sale.
