Comments: Emerald Lake Shelter Reconstruction Project - 66370

I wholeheartedly agree with the reconstruction of the Emerald Lake Shelter. As an Utah County resident of 35+ years, Mt Timpanogos has been a favorite destination for me. Watching the shelter crumble and fall throughout the years has been like watching a piece of History crumble. Some of my favorite times on the mountain, were spent sitting in the shelter and listening to stories from people who have hiked the mountain for many years before me. The day I found out the shelter had fallen, was a sad day, and the Emerald Lake area doesn't have the same feel without the shelter there to welcome people hiking through. The history of the shelter is as amazing as the history of the mountain. Please don't let that history die.
