Comments: I am in full support of rebuilding the Shelter at Emerald Lake.

I do have a request. In addition to providing shelter, the original shelter also had a restroom. I would very much appreciate if restroom facilities included in the reconstruction of the shelter (the documents I read were not clear on this). This may be attached to the shelter or separate if needed.

The nearby lake is a very popular rest point in hiking the mountain, and many people relieve themselves there. Having a restroom would be important to prevent inappropriate waste burial/disposal, especially near the lake. Many people filter water from the lake to refill their bottles, and the lake feeds into waterfalls and streams all along the Aspen Grove trail.

Thank you
