Comments: I support this proposed sale of School Trust lands within the BWCAW to the federal government.

This seems like a win-win solution, as the School Trust will get the money it was intended to receive from these lands, while the BWCAW will have a potential mining and logging threat removed.

It's heartening to see this type of protective attitude toward the BWCAW. This wilderness area is recognized globally as an amazing, pristine resource, and yet too often it seems to be taken for granted by the MN DNR and other government agencies. If it's destroyed by mining or logging, then it's gone forever.

I strongly support this sale of School Trust lands to the federal government, as well as the acquisition of additional lands around the area.
